

## B306 – Ankle cut, Lace-Up Safety Shoes (S1P)

### Sneakers Series

Colours Available:

The B306 is a versatile safety shoe designed for individuals who engage in hiking, walking, and light industrial activities. This model seamlessly combines comfort, durability, and essential protection, making it an ideal choice for diverse outdoor and work environments.

**Upper:** Crafted from high-quality suede leather, the upper not only offers a stylish appearance but also ensures durability and resistance to the elements, making it suitable for rugged terrain.

**Lining:** The brown BK mesh lining enhances breathability and moisture management, keeping your feet comfortable and dry during extended wear.

**In Sock:** Featuring a combination of high-density poly and BK mesh, the in-sock provides excellent cushioning and ventilation, helping to reduce fatigue during long periods of activity.

**Insert Plate:** The B306 is equipped with a Kevlar insert plate, offering superior puncture resistance to protect your feet from sharp objects.

**Toecap:** With a steel toecap capable of withstanding impacts of up to 200 joules, this shoe ensures robust protection for your toes against heavy falling objects.

**Sole:** The rubber sole provides excellent grip and stability, making it suitable for various surfaces.

**Standard:** Compliant with S1P safety standards, the B306 is the perfect choice for those seeking a reliable blend of safety, comfort, and performance in their footwear.
